## Lecture 15

### Clicker questions

- We do not need to test inserting an element to the end of a list because it is treated the same as inserting into the middle.

### Finishing `arrange-people`: sorting a List

```
arrange-people
/ (fn. comp) \
layout-people  sort
/ (reference)   \ (arbitrary sized data)
make-image      insert
                  | (knowledge domain shift)
                  older?
```
